Presents

WEAVE THE WEB

(The Website Designing Competition)

Web design is a Web development process for creating a website that focuses on aesthetic factors like layout, user interface and other visual imagery in order to make the website more visually appealing and easy to use. Web design makes use of various programs and tools in order to achieve the intended look, such as Dreamweaver, Photoshop and many others.

EVENT HELD ON: 27-28th October 2018

TEAM DETAILS:

- **Maximum participants per team: 2**
- **Minimum participants per team: 1**

ABOUT THE EVENT: In this event technical skills of your Web Designing will be tested and the most efficiently working model with less amount of code will be awarded.

The individual team needs to implement the Web Design according to the problem. In round 1, a webpage will be displayed for everyone and those who create almost identical page with less code will be winner. In next round, they have to design a responsive website based on given information and resources (images, links etc) and you will be judged on page functionality and UI/UX design.

Rules:

1. The registrations will be done online and offline both.
2. Participation fee will be Rs 150/-
3. This is not an individual contest. You must work in the team and discussions with any other team will not be entertained.
4. All students are welcome to participate.
5. Decision of Judges will be final and binding. in disciplinary act will lead to straight disqualification.
6. Misbehaviour and argument with event management team will lead to disqualification.
7. Use of mobile devices, notes and other unfair means is prohibited.
8. Rank list will be prepared based on scores provided by judges.
9. Participants must bring their College ID cards without fail during competition.

ROUND 1:

1. In this contest you will be required to make the identical web page as per to the given problem.
2. Use of web-development platforms like Wix, Word Press, etc are not allowed.
3. You can use only html, CSS, JavaScript and PHP.
4. In this round you will not have access to internet.

ROUND 2:

1. In this round you will be given a problem statement and you have to design a responsive website based on given information and resources (images,links etc).
2. You will be provided Internet access.
3. You will be judged on the basis of ui/ux design, ease of navigation, use of sliders and other complex elements, page loading speed etc.
4. Use of web-development platforms like wix, WordPress, etc are not allowed.
5. You can use only html, css, JavaScript and pHp.
